

ST. JOHN  
INTERPAROCHIAL  
SCHOOL

## COVID-19 ADDENDUM

2020-2021

Parent/Student Handbook

***Anyone who is feeling unwell or experiencing symptoms associated with COVID-19 should NOT report to school. Students who are running a fever (a temperature of 100.4 degrees or higher) for any reason should NOT report to school until they have been fever-free for AT LEAST 24 hours WITHOUT having taken any fever-reducing medication in that 24 hour period.***

St. John School is beginning the 2020-2021 school year under Phase 2 of the Louisiana Department of Education guidelines for re-opening schools under Covid-19 pandemic conditions. Full guidelines can be found at the Louisiana Department of Education website. All families are required to sign the attached Diocesan waiver to report to campus in the fall.

The policies and procedures contained herein may be updated as circumstances surrounding the Covid-19 pandemic change and/or in response to updated recommendations from the CDC, health professionals with whom the Diocese of Baton Rouge/St. John has consulting partnerships, or state or local authorities.

The principal has the discretion to permit classroom instruction to be streamed live online, recorded, or both, in order to provide remote learning for the benefit of students. Many of these policies are based on our ability to have students and teachers on campus for in-person learning, and may change if classes are no longer able to be held on campus. Families will still be responsible for tuition if school is closed due to weather or a public health concern. The education of each student will continue through teacher-supported online learning. Teachers will continue to plan standards-based instruction and lessons and evaluate student work. Report cards will be distributed at the end of each grading period. If a parent/guardian is unable to make regular tuition payments, the principal should be notified as soon as possible to discuss payment options.

Parents are deemed by enrolling their children in school to agree that they and their children will abide by all health/safety guidelines issued by applicable civil authorities, as well as those issued by the school. The school will comply with all health information reporting mandated by civil authorities.

# HEALTH & SAFETY STRATEGIES AND PREVENTION MEASURES

## ***Social Distancing:***

Current recommendations for a safe return to school suggest that it is best to keep students in static groups (or “pods”) as much as possible throughout the day, and avoid groups of more than 25 including the adult in the room. Classroom arrangements have been adjusted to provide as much social distancing as possible. In addition, students will be reminded to maintain social distance from each other during lunch, recess breaks, and arrival and dismissal on campus.

Health experts and officials recommend maintaining social distancing, staying at home, and avoiding large groups whenever possible to contain community spread. For these reasons, we consider it in the best interest of the school community to encourage social distancing behaviors off campus as well as on campus. We will not allow students to pass out party invitations at school, and we are asking our families to be mindful of the potential impacts of large group gatherings of students with friends outside of school that do not observe social distancing or wearing masks.

## ***Masks & Face Coverings:***

Masks, gaiters, or other face coverings are required for all adults on campus and all students in grades 3 and up, and strongly encouraged for students in grade 2 and younger. Students in grade 2 and younger will be allowed to wear masks at any time, if they choose. Students **MUST** bring their own mask to campus every day. It is recommended that students also have an extra in their backpacks in case their mask becomes unwearable during the day. Masks should be washed frequently. Students may wear any type of mask they wish, but masks may not have inappropriate language or artwork. Face shields may not be worn. There will be pre-planned “breaks” during time outside when students are socially distanced and may remove masks, and they will be directed by their teachers when it is appropriate to do so.

If anyone forgets a mask, they will be given a disposable mask when they arrive on campus. If a mask becomes unwearable during the day and a student does not have an extra, a replacement disposable mask will be provided. A limited number of extras will be available; the school will not be able to provide a mask to anyone every day.

## ***Medical Disclosures:***

Families must fully disclose any communicable illnesses that may affect our campus community, including exposure to Covid-19, if a student is experiencing symptoms associated with Covid-19, if a student is tested for Covid-19 (even before test results are received), Covid-19 tests results (whether positive or negative), Covid-19 diagnosis, and treatment plans. Families are also encouraged to disclose any medical information that affects a student’s susceptibility to COVID-19 or other communicable illnesses, including immune system conditions or other underlying conditions that may put a student in a high risk category for infection. This information will be kept confidential and only used to plan necessary safety precautions for our students, faculty, and staff.

### ***Confidentiality and Contact Tracing:***

Even in the extraordinary circumstances created by COVID-19, students and their families have a right to confidentiality where health and personal circumstances are concerned. In the event of possible exposure or positive cases, the school will notify possible close contacts first, and may send a courtesy notification to other members of the class if determined appropriate. We will also follow any recommendations provided to us by the Diocese, Our Lady of the Lake, and/or our LADOE Regional Health Officer, when sharing information with families. If a courtesy notice is sent indicating that there is a positive case in a classroom or school, it should be clear that it is NOT to indicate quarantine but for awareness so people can be alert for symptoms and can make modifications due to any personal risk factors.

If it is determined that there are numerous positive cases within a class, grade or building, or there are numerous exposures to one or more positive cases within a class, grade or building, St. John will report to the Diocese of Baton Rouge and healthcare partners to assess and determine risks and make decisions regarding quarantine or or online learning that will ensure the health, safety, and continued education for our students.

If a student/student's family member does contract COVID-19 or must self-isolate due to possible exposure, families will be expected to cooperate with contact tracing efforts. Families may be asked to provide information about interactions the affected person had with any students/faculty members outside of school hours, or where they believe they may have been exposed (in cases of "hotspots"). Confidentiality will be maintained through contact tracing and only information that is necessary to evaluate the possibility of community spread on campus will be collected.

### ***When a Student Seems Sick at School:***

If a student is showing symptoms that are not associated with COVID-19, or symptoms that can be clearly attributed to something other than COVID-19 (e.g. fatigue from getting overheated at recess), normal procedures regarding illness at school will be followed.

Students who become sick or begin showing symptoms associated with COVID-19 during the school day will be brought to an isolated area until a parent can pick them up from school. The student MUST be picked up from school as soon as possible; students can not stay in the isolation area until regular dismissal, return to class, or be allowed on a school bus if displaying COVID-19 symptoms. Parents are asked to have a plan and identify a trusted individual(s) who can pick up a student from school in the event that a parent can not. Materials will be sent home with the student and should be sanitized before the student returns to school, especially nap mats and covers, jackets, backpacks, and masks.

### ***Hygiene and Sanitizing Recommendations:***

Good hand washing practices and hygiene are important to keeping everyone healthy. Students will be asked to wash their hands frequently throughout the day, before and after eating, before and after using playground equipment, and when arriving on campus. Students will also be encouraged to use hand sanitizer throughout the day, especially when changing classrooms or if hand washing is not possible. Students are allowed to carry and use their own hand sanitizer, and hand sanitizer will be provided in classrooms and at high-traffic areas on campus. Students should cough and sneeze into a tissue or their elbow to prevent spreading germs, and avoid touching their eyes, nose, and mouth.

Indoor spaces (especially high-touch areas) will be sanitized whenever students leave a room, before they re-enter the room or before another group of students enters. Students in grades 6-12 may be asked to help with sanitizing (for example, wiping down their desk with a disinfectant wipe as they leave the room).

Sharing of materials between students will be minimized in classrooms.

# COVID-19 ILLNESSES

Absences and next steps related to COVID-19 illnesses will be considered on a case-by-case basis, in consultation with medical professionals from Our Lady of the Lake (contracted with the Diocese of Baton Rouge for health and safety support) and the Regional Health Officer assigned to us by the Louisiana Department of Education. Anyone who is sick should stay home. Students must quarantine while awaiting test results for themselves or members of their household. Anyone who tests positive will be encouraged to cooperate fully with contact tracing for the protection of students and faculty/staff who they may have exposed before receiving a positive result. At ANY time, St. John School reserves the right to ask a student to quarantine and/or for a student to obtain a doctor's release prior to returning. The following are possible Covid-19 illness scenarios and currently recommended guidelines which may be appropriate responses; this list is not exhaustive and other/additional steps may be deemed appropriate when addressing specific cases:

## ***STUDENT WITH SYMPTOMS OF COVID***

### ***10 days – fever free 24 hours – symptom free***

If a student develops symptoms of COVID, parents must immediately notify the school office and the student must quarantine for 10 days after the start of the symptoms. In addition, the student must be fever free (without meds) for at least 24 hours, and all symptoms must resolve before the student is able to return to school. Parents must complete a Return to School self-certification form and fax/email on the day BEFORE the student returns,

\*If student visits a doctor and it is determined the student does NOT have COVID, but has another illness detected through testing (influenza, strep, etc.) the student may return before the 10 days, however, the student must be fever free (without medication AND free of ANY symptoms, especially those associated with COVID-19. Parents must fax/email the doctor's release with a valid date of return, on the day BEFORE the student's return.

## ***STUDENT WITH SYMPTOMS AND A POSITIVE COVID TEST***

### ***10 days – fever free 24 hours – symptom free – Doctor's release***

If a student develops symptoms and is COVID positive, parents must immediately notify the school office and the student must quarantine for 10 days after the start of the symptoms. In addition, the student must be fever free (without meds) for at least 24 hours, and all symptoms must resolve before the student is able to return to school. Parents must also fax/email a doctor's release with a valid date of return on the day BEFORE the student's return.

## ***STUDENT WITHOUT SYMPTOMS AND A POSITIVE COVID TEST***

### ***10 days – Doctor's release***

If a student is COVID POSITIVE, and DOES NOT have symptoms, parents must immediately notify the school office and the student must quarantine for 10 days from his/her positive test. The student must also have a doctor's release with a valid date of return PRIOR TO their return.

\*If a student develops symptoms within this timeframe, the 10 days from the positive test still applies, but the student must ALSO be fever free for 24 hours and free of ANY symptoms before returning.

***STUDENT WITH SYMPTOMS AND COVID NEGATIVE***

***10 days – fever free 24 hours – symptom free – Doctor’s release***

If a student develops symptoms and is COVID negative, parents must immediately notify the school office and the student must still quarantine for 10 days after the start of the symptoms. In addition, the student must be fever free (without meds) for at least 24 hours, and all symptoms must resolve before the student is able to return to school. Parents must also fax or email a scanned copy of the doctor’s release with valid date of return on the day BEFORE his/her return

***STUDENT EXPOSED TO COVID WITH NO SYMPTOMS:***

***14 days – Return-to-school Self-Certification for COVID-19 form***

If any student has close contact with someone positive for COVID, parents must immediately notify the school office and the student must quarantine for 14 days from the date of his/her LAST exposure to that person. If that student never develops symptoms, he/she is able to return to school on the day AFTER the 14th day, and AFTER parents complete and send (via fax or scan attached email) the Return to School self-certification for COVID-19 form.

CLOSE CONTACT: Close contact refers to within 6 feet for 15 minutes or more with or without the use of a mask, OR if the student:

- A) Lives in the same household as the infected
- B) Has shared eating and or drinking utensils
- C) Has hugged, kissed or touched the infected
- D) Has stayed or slept at the infected persons home while the COVID+ person was symptomatic and within the 48 hours prior to the onset of symptoms.

***STUDENT WITH EXPOSURE DEVELOPS SYMPTOMS WHILE IN QUARANTINE:***

If a student who has been exposed to COVID develops symptoms while in quarantine, the guidelines for a student with Covid-19 symptoms will apply (see above).

We are aware that many symptoms of Covid-19 are also common to other illnesses and chronic conditions, including the common cold, flu, seasonal allergies, asthma, etc., and students may experience Covid-19 symptoms that are attributable to another cause. However, we must proceed with caution whenever Covid-19 symptoms are present. We encourage families to share information regarding any conditions their student(s) may have that would cause Covid-19 symptoms so we can make the most informed decisions to decrease risk in our school community.

# DAILY PROCEDURES

## ***Arrival:***

Students should have their temperature checked before coming to school each day; anyone running 100.4 fever or higher should stay home. When possible, all students should wear a mask when arriving on campus since social distancing will be difficult during that time.

Students must have a temperature screen when arriving on campus. Students who register a fever of 100.4 or higher when screened will be re-screened within 5-10 minutes; anyone who arrives in the same car as a student who registered a fever must also wait and be re-screened. Parents/drivers **MUST** wait until a student's temperature screen is clear before leaving campus. Students who are running fever, and anyone who arrived in the same car, will not be allowed on campus and must be fever free for at least 24 hours without fever-reducing medication before returning to school.

Students should be dropped off at the location designated for the youngest student in the car. Drop-offs and temperature screens will be conducted at the following entrances:

- Students in PreK-3 and PreK-4 must be walked up to the gate at the circle driveway facing St. Clement Ave. for temperature screening. Older siblings who are coming into campus may walk up with them. Parents of PreK students who generally walk students to the classroom should walk up to the gate with their student and meet the teacher/aide who will be there to assist; parents will not be allowed into the gate, and must wait until the student has passed the temperature screen to leave. Please maintain social distancing when waiting for assistance.
- Circle driveway facing St. Clement Ave. (buses, early arrivals, Kindergarten students) - students will be screened at the car before entering the gate, and proceed directly to the appropriate classroom building to report to their classrooms. Drivers may not leave until all students in their car have passed the temperature screen.
- Carpool area by St. Clement Chapel (students in grades 1-5) - students will be screened at the car, and proceed directly into the appropriate classroom building to report to their classrooms. Drivers may not leave until all students in their car have passed the temperature screen.
- Cafeteria drive facing Price St. (students in grades 6-8) - students will be screened at the car, and proceed through the high school quad to the middle school building. Drivers may not leave until all students in their car have passed the temperature screen; any drivers who have to wait will be directed to a parking spot by the teacher on duty.
- High school gym - (students in grades 9-10) - students will be screened at the glass doors of the gym and proceed through the gym to their first hour class. Anyone who drops off a student at this location must wait until the student passes the temperature screen before leaving; any student who drives to school and does not pass the temperature screen will be asked to leave campus, and parents will be notified.
- High school building (students in grades 11-12) - students will be screened at the glass doors of the high school building and proceed to their 1st hour classes. Anyone who drops off a student at this location must wait until the student passes the temperature screen before leaving; any student who drives to school and does not pass the temperature screen will be asked to leave campus, and parents will be notified.

Younger students who arrive with a student driver will be screened at the glass doors of the gym, and proceed through the gym to the appropriate classroom building. If the younger student registers a fever, the younger student and the student driver will be asked to leave campus, and parents will be notified.

Students may not enter campus at any other points, and all additional gates/doors on campus will remain locked. Students who drive to school must exit their cars and report to the the appropriate building immediately upon arriving on campus; students may not congregate in groups on campus in any unsupervised areas.

Early arrival will begin at 7:00 am. Families MUST pre-register for early dismissal so that we can ensure social distancing practices and proper supervision are possible, Students will be directed to a specific classroom/location according to grade level and social distancing practices will be maintained until students go to their regular classrooms. Students will have to wash hands or use hand sanitizer before going to their regular classrooms, and older students may be asked to help sanitize the room they are leaving.

Regular arrival begins at 7:20 am, and students will report directly to their homeroom or 1st hour classrooms when they arrive on campus instead of gathering in shared spaces. Social distancing practices will begin as soon as students report to campus, and students should use hand sanitizer upon entering and leaving indoor spaces.

Regular arrival ends at 7:45 am, and all entrances to campus will be closed and locked at that time. Students in grades PreK-8 who arrive after 7:45 am should drive up to the circle driveway facing St. Clement Ave. and wait for a staff member to come conduct a temperature screen and open the gate. Students who drive to campus or arrive with a student driver and arrive after 7:45 should enter the high school building through the glass doors and report to the office for a temperature screen. Please make every effort to be on time.

### ***Dismissal:***

At this time, we are trying to keep dismissal at normal time. There will be one additional dismissal carpool line at the cafeteria drive for families who have ONLY students in grades 6-12. Like arrival, families should choose which carpool to use according to the youngest child.

In order to maintain social distancing, students will be called to carpool in groups of 15. Bus dismissals will be staggered by bus groups.

Teachers will not be able to buckle students into car seats.

Families with students in ONLY PreK-3 and PreK-4 will be dismissed from 2:30-2:40 pm. Students will be escorted to the gate at the circle drive facing St. Clement Ave. to meet parents. Any student who is in PreK-3 or PreK-4 who has an older sibling will be escorted to carpool to meet that older sibling during regular dismissal. Older siblings will not be allowed to enter the PreK classrooms.

High school students who are in the high school building at the end of the school day will be dismissed in groups over the intercom. High school students who leave by carpool will be dismissed first. Student drivers will be dismissed to their cars by grade level. High school students who are not in the high school building at the end of the day will be dismissed from their locations in their pods by their supervising teachers.

**Checkouts:**

St. John is a closed campus, and students are expected to be on campus during school hours. Leaving campus for non-emergency reasons (checking out for hair appointments, etc.) is strongly discouraged. No checkouts will be allowed after 2 pm.

Parents will not be allowed on campus or into school buildings to pick up students who are checking out. Parents coming to campus to pick up a student in grades PreK-8 should report to the gate in the circle drive facing St. Clement Ave. and wait for assistance from a staff member. The student who is checking out will be sent or escorted to the gate to meet the parent. Parents of high school students coming to campus to pick up a student should report to the glass doors at the front of the high school building and wait for assistance from a staff member. Students will be sent out of the building to meet the parent. Student drivers who are checking out will report to the high school office to complete a checkout form and leave through the glass doors; parents will still be notified by phone. If a high school student and a PreK-8 student are checking out early and leaving campus together and being picked up by a parent, the parent should report to the gate in the circle drive facing St. Clement Ave. and wait for assistance from a staff member; the high school student will be called out of class and asked to report to this gate to meet the parent, only passing through outdoor campus spaces. If a student driver and a younger student are checking out and leaving campus together, the student driver will report to the high school office for checkout, and the younger student will be called out of class to report to the main office, then sent or escorted to the gate between the high school building and gym to meet the student driver, only passing through outdoor campus spaces.

Students who must check out of school early are strongly encouraged to wait until the next school day to return to campus. If a student leaves campus and must return later during the school day, they must go through the arrival procedure for students who arrive after 7:45 am and have an additional temperature screen when they return. They are also encouraged to wear a mask while in public.

**Visitors to Campus:**

Visitors will not be allowed on campus until further notice. This includes guest speakers to classes, lunch visitors for Start of the Week, visitors for classroom parties, and volunteers. Visitors who are coming to campus for school business (e.g. dropping off/picking up children during the day), or visitors coming to campus for personal business with a faculty/staff member, will be asked to wait at the main gate for assistance. E-mail communications, phone calls, and Google Meet/Zoom conferences are encouraged in order to help limit the number of visitors on campus. We will not accept items dropped off for students during the day.

**Breakfast and Lunch:**

Physicians have identified breakfast and lunch as times of increased risk during the school day, so social distancing measures will be STRICTLY enforced during these times. Students who eat breakfast at school will have a “grab and go” breakfast. Lunch will be packaged for delivery and/or pick-up as well. When possible, lunch will be delivered to classrooms in order to maintain student pods and social distancing; a seating plan for lunch that allows for social distancing among students who pick up food from the cafeteria will be developed, and outside spaces will be utilized when possible. The cafeteria will continue to use disposable plates and utensils.

Students in grades PreK-8 are still required to eat lunch from the cafeteria; any student in these grades who would like to bring lunch to school must obtain a doctor’s note and fill out the required school Elementary/Middle Lunch Exemption Form located under Quick Links on the school website.

***Water Bottles:***

Water fountains on campus will be closed for sanitation reasons. Students in all grades are encouraged to bring their own reusable water bottles, filled, from home; clear bottles are preferred. There will be opportunities for teachers to assist students with refilling water bottles from coolers and/or bottled water throughout the day while maintaining recommended hygiene procedures.

***Medication Policy:***

Students who take prescription medication at school during the day must still turn in medication; they will not be allowed to carry medication themselves. Students who must report to the office to take medication need to wear masks, and will need to wash their hands and sanitize their classroom spaces when leaving and when returning if they must take the medication during a class period. Everyone should wash their hands or use hand sanitizer before and after giving or taking medications.

***Virtual, Remote, and Teacher-Supported Online Learning:***

St. John School will offer a virtual learning option for families who are not comfortable with in-person learning in the fall. Families were required to request this option over the summer and commit to virtual learning for the entire first semester; requests for this option are no longer being accepted. Throughout the first semester, we will revisit virtual learning opportunities in consideration of student performance, teacher feedback, and state and local health and safety guidelines. Families who participate in this option must follow the virtual learning plan provided by the school.

Remote learning will be implemented for students who are required to quarantine or test positive for Covid-19 (provided their condition allows them to participate). For remote learning, students may be required to log in to livestreamed classes (using platforms such as Google Meet), complete and submit assignments online through Google Classroom or another online platform, view recorded or other types of asynchronous lessons, or hold virtual meetings with teachers. Students will be required to complete the same assignments and observe the same due dates as the on-campus students, unless health considerations prevent them from doing so.

The school may make the decision at some point to temporarily suspend or discontinue on-campus classes. If this becomes necessary, teacher-supported online learning will be implemented so that students can continue to learn through any campus closures.

It should be expected that any class at any time can be required to support students through online learning. During this time there is the possibility that a student's personal information may be transmitted online to include their image, name, likeness, speech, written and verbal work, presentations, etc. At no time should any student, parent, sibling, or any other person who gains access to the online classroom publicize through social media, third-party website, personal website, or any other means the content associated with the class. Violation may result in school related consequences to include suspension or expulsion.

Additional information regarding adjustments to classroom arrangements, traffic flow in buildings, enrichment classes, and other procedures that are traditionally communicated through teacher/parent communications, Back to School presentations, or methods other than the Parent/Student Handbook may still be communicated via those other methods, or new methods such as informational videos or Google Meet meetings. This addendum is not meant to be an exhaustive listing of all adjustments related to Covid-19 pandemic measures. The Parent/Student Handbook remains the primary contract between families and St. John School, and policies contained therein are still enforceable to the extent possible under Covid-19 pandemic guidelines.

**DIOCESE OF BATON ROUGE**  
**COVID-19 CONSENT FORM AND LIABILITY WAIVER**

Name(s) of Child(ren): \_\_\_\_\_

Birth date(s): \_\_\_\_\_ Gender(s): \_\_\_\_\_

Parent/Guardian's name: \_\_\_\_\_

Home address: \_\_\_\_\_

Home phone : \_\_\_\_\_ Business phone: \_\_\_\_\_

The novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization. COVID-19 is extremely contagious and social distancing is therefore recommended. St. John School will follow state and local standards of conduct and has put in place reasonable preventative measures to reduce the spread of COVID-19 at its School and activities, including but not limited to summer camp and summer workouts (each, an "Activity"). However, even though such standards will be followed, and reasonable measures are now in place, St. John School cannot guarantee that your child(ren) or you will not become infected with COVID-19. Further, your child(ren)'s attendance at school or an activity could increase his/her/their risk, and yours, of directly or indirectly contracting COVID-19.

By signing this COVID-19 Consent Form and Liability Waiver ("Agreement"), I acknowledge the contagious nature of COVID-19 and that my child(ren) and I may be exposed to or infected by COVID-19 by his/her/their participation in an Activity and that such exposure or infection may result in personal injury, illness, permanent disability, and even death ("Injury"). I understand that the risk of becoming exposed to or infected by COVID-19 at school or an activity may result from the actions, omissions, or negligence of myself and/or others, including, but not limited to, Parish/School employees, volunteers, and participants in an Activity and their families.

Considering the foregoing, however, I, \_\_\_\_\_, grant permission for my child(ren) named above to attend school and activities, which may require transportation to a location away from the St. John School site, notwithstanding the risks associated with the COVID-19 virus and group activities.

I confirm that no changes are required to the Medical Information Consent form for my child(ren) that I previously submitted. If any changes to it become necessary, I will promptly complete and deliver another Medical Information Consent form to St. John School to replace it.

I further agree on behalf of myself, my child(ren) named herein, and my spouse (if any), my/our heirs, successors and assigns, to release, indemnify and hold harmless St. John School and The Roman Catholic Church of the Diocese of Baton Rouge, its/their members, directors, officers, employees, agents and representatives ("Indemnitees"), from all claims related to an Injury associated with an Activity and arising from or in connection with the negligent acts or omissions of the Indemnitees, but ONLY in regard to the prevention of the spread of the COVID-19 virus. I SPECIFICALLY ACKNOWLEDGE AND AGREE TO THE FOREGOING.

**ST. JOHN SCHOOL**  
**VOLUNTARY MEDICAL DISCLOSURE**

I, the undersigned, am the parent/guardian of the student listed below, and would like to voluntarily disclose the following medical conditions that affect my student because they may present the same symptoms that are associated with Covid-19 and/or may put my student in an increased-risk category for Covid-19 according to the CDC. I understand that this information will be kept confidential, and will only be used by the school in efforts to discern the appropriate response for my student and the rest of the St. John community should my student show symptoms of Covid-19 while at school.

Name of Student: \_\_\_\_\_

Grade: \_\_\_\_\_

Medical Conditions:

---

---

---

---

---

---

---

---

\_\_\_\_\_ My student takes prescription medication regularly for one or more of the above conditions. (If yes, please list the medications above with the conditions, or attach a list to this form.)

\_\_\_\_\_ My student takes over-the-counter medications or uses other non-prescription treatments as needed for all of the above conditions.

\_\_\_\_\_ I can provide documentation from my student's pediatrician/physician confirming the above condition(s) upon request from the school and will voluntarily do so if requested.

**ST. JOHN SCHOOL**  
**RETURN TO SCHOOL SELF-CERTIFICATION**

**PLEASE NOTE: This form must be completed and sent to school via fax or email BEFORE the student returns to campus. Students may NOT bring this form with them on the day they return.**

I, the undersigned, am the parent/guardian of the student listed below, and I attest to the following in order for my child to return to on-campus classes (please check all that apply):

Name of Student: \_\_\_\_\_

Grade: \_\_\_\_\_

\_\_\_\_\_ My student has been fever free without the use of fever-reducing medications for at least 24 hours. (This MUST apply for a student to return to campus; if this does not apply, please do not continue filling out this form or bring your child to school.)

\_\_\_\_\_ My student quarantined while they or a member of our household waited to receive results of a Covid-19 test. My student has not experienced any Covid-19 symptoms and test results were negative.

\_\_\_\_\_ My student was exposed to someone who tested positive for Covid-19, and has quarantined for 14 days from the date of last close contact with that person; my student has not experienced Covid-19 symptoms.

\_\_\_\_\_ My student experienced symptoms of Covid-19, and has self-isolated for 10 days from the date of the onset of symptoms; my student has been fever free for at least 24 hours without the use of fever-reducing medications and their symptoms have improved and/or resolved.

Date of onset of symptoms: \_\_\_\_\_

Date of requested return to school: \_\_\_\_\_

\_\_\_\_\_ My student experienced symptoms of Covid-19, but was diagnosed with a condition other than Covid-19 to which the symptoms were attributable, and has been released by their pediatrician/physician to return to school on-campus. That doctor's release is attached.

\*\*Any student who tested positive for Covid-19 MUST have self-isolated and/or quarantined for at least 10 days from the date of the onset of symptoms or the date of the positive test if the student is asymptomatic, be fever free for at least 24 hours without fever-reducing medication, and have seen symptoms resolve/improve. A written release from their pediatrician/physician is REQUIRED to return to school in these cases and must be attached to this form.\*\*
